

# Feed & Grain

INFORMATION TO GUIDE YOUR PROFIT AND GROWTH

## IMPORTANT INFORMATION ABOUT 2015 SHOWCASE

*Feed & Grain* magazine's **SHOWCASE** issue is the industry's most comprehensive buyer's guide. There are four ways to take advantage of its ability to "showcase" your company, products and services.

**PRODUCT RELEASES:** Fill out the enclosed Product Release Information sheet with your top three products from our Online Buyers Guide. Or, provide new product information and photograph electronically (Photos must be high-resolution). Please email the photos to [elise.schafer@feedandgrain.com](mailto:elise.schafer@feedandgrain.com), or if you have any questions, call Elise Schafer at (920) 397-3831.

**PRODUCT/SERVICE DIRECTORY:** At the front of the magazine, we run an alphabetical listing of the product and service categories. This directory lists suppliers' company names only, under up to 10 categories for free. Use the form headed *Feed & Grain* Product/Service Categories List to specify your listings.

Purchase an inexpensive "adlet" — now available in color — in this section to further catch readers' attention!

**COMPANY DIRECTORY:** At the back of the magazine, we run a FREE company directory! This is an alphabetical list of companies supplying products and services to the feed and grain industries. Fill out the form titled Company Directory Listing to make sure we have up-to-date company information.

**ADVERTISEMENTS:** Advertise your products or services in the appropriate category or in special positions at the front of the magazine. Do not miss your opportunity! Showcase is distributed at all major industry trade shows. For details, call Arlette Sambs at (920) 397-3828 or Jonathan Franks at (920) 397-3835.

**BUT YOU MUST RESPOND TO THIS MAILING ... AND SOON!** Make sure you fill out and send the appropriate forms. If you have any questions, contact *Feed & Grain's* editor Elise Schafer at [elise.schafer@feedandgrain.com](mailto:elise.schafer@feedandgrain.com) or (920) 397-3831, or Vicki Roth, media services representative, at [vicki.roth@feedandgrain.com](mailto:vicki.roth@feedandgrain.com) or (920) 397-3834 for more information.

**DEADLINE: AUGUST 22, 2014**  
**DON'T MISS OUT!**

INFORMATION TO GUIDE YOUR PROFIT AND GROWTH

## 2015 SHOWCASE

### PRODUCT RELEASE INFORMATION

Please go to *Feed & Grain's* Online Buyers Guide at [www.feedandgrain.com/company](http://www.feedandgrain.com/company) to view the product information we have on record.

1. Select your company from the alphabetical list
2. Scroll down to view your products
3. Fill in the form below with your product selections and their categories

Please review these products and specify the ones you would like included in *Feed & Grain's 2015 SHOWCASE* issue and identify which product category (see attached list) you would like each product to appear in. Product inclusion within Showcase is **FREE**, but space is limited, so please list the products in order of priority.

Product Name	Category
1. _____	_____
2. _____	_____
3. _____	_____

If you would like to submit a new product, contact *Feed & Grain's* editor Elise Schafer at [elise.schafer@feedandgrain.com](mailto:elise.schafer@feedandgrain.com). Please include the product's name as you would like it to appear, a high-resolution image and four to five bullet points describing it.

If you would like existing information to be updated or deleted, please email [elise.schafer@feedandgrain.com](mailto:elise.schafer@feedandgrain.com).

**DEADLINE: AUGUST 22, 2014**

# FEED MANUFACTURING

## SUDENGA INDUSTRIES COMMERCIAL MICRO SKID

- High and low speed settings for each individual bin motor
- Large bins minimize bridging with their vertical sides and chamfered corners
- Individual weighing bins for easy inventory of FDA-restricted ingredients
- Batching system uses Windows XP operating system

[feedandgrain.com/product/10002187](http://feedandgrain.com/product/10002187)

## SCOTT EQUIPMENT CO. HIGH EFFICIENCY BATCH MIXER

- Fast, efficient cleanout between mixing batches
- Increases production with batch cycle times as low as 90 seconds
- Surge conveyor can be designed using the Scott invented curved section for inclines up to 45 degrees
- Available with either paddle drag conveyor or a screw conveyor for discharge

[feedandgrain.com/product/10002070](http://feedandgrain.com/product/10002070)

## HAYES & STOLZ IND. MFG. CO. LLC TR SERIES COUNTERPOISE BATCH MIXER

- Fast mixing 15 seconds to one minute
- Complete and precise homogeneous mix with no dead spots or stratification of product
- Less product degradation due to fast mixing times
- Twin-shaft design provides for a lower profile mixer

[feedandgrain.com/product/10001620](http://feedandgrain.com/product/10001620)

## RMS ROLLER GRINDER INC. ROLLER GRINDERS

- Two-year warranty on all machines sold, if we do the scheduled maintenance
- 100% dust-free operation guaranteed
- Patented dual motor drive system
- Electric or PTO
- Precision roll alignment in seconds
- Single, double, triple or quad pair mills
- Stationary or trailer units

[feedandgrain.com/product/10002607](http://feedandgrain.com/product/10002607)

## CPM/ROSKAMP PELLET MILL

- Full line of pellet mills
- Engineered to be highly efficient
- Positive direct drive gear provides high-energy transfer
- Broad range of conditioning systems

[feedandgrain.com/product/10001399](http://feedandgrain.com/product/10001399)

## ZHENG CHANG SZLH1068 POULTRY & LIVESTOCK PELLET MILL

- Variable frequency feeder is adaptable
- Double-screw variable pitch screw ensures even feeding of the feed
- Main motor works at stable current; round screw barrel can prevent upcoming steam
- Reliable and easy to maintain

[feedandgrain.com/product/10817965](http://feedandgrain.com/product/10817965)

## STERLING SYSTEMS & CONTROLS MICRO INGREDIENT SYSTEMS

- Micro, minor and macro ingredient weighing systems
- Gain-in-weight systems
- Loss-in-weight systems
- Typical configurations include 6 to 48 supply bins with single or multiple scales
- Standard and customized designs
- 2- to 6-inch heavy-duty feeder assembly with bearings and seals at each end of the feeder
- Fixed and traveling scale configurations
- Bulk bag systems
- 2- to 125-cubic-foot supply bins

[feedandgrain.com/product/10001953](http://feedandgrain.com/product/10001953)

## APEC (AUTOMATED PROCESS EQUIPMENT CORP.) AUTOMATION SYSTEMS FOR DRY INGREDIENTS

- Specialized in the design and manufacturing of automation systems for dry ingredients
- Equipment and control systems precisely measure from grams to tons and from pounds to tons per hour.
- As the manufacturer of both the equipment and control systems, APEC's in-house designers address entire program and assemble complete systems from its large product line or customized solutions

[feedandgrain.com/product/10148448](http://feedandgrain.com/product/10148448)

## REPETE CORP. SABRENXT PELLETING AUTOMATION

- Automated routing of entire pellet line
- Patented Repete algorithm optimizes pelleting runs
- Commodity and equipment interlocking
- Automated run routing and scheduling
- Simple and intuitive graphical interface
- Independent Computer Assisted Manual (CAM) control for all equipment
- Visual and audible alarms
