# Natural Ingredients

## OXABIOL® E pet

Natural Vitamin E (d- $\alpha$  Tocopherol) from Non-GMO vegetable is an essential compound in animal nutrition thanks to its recognized benefits. **Oxabiol® E pet** is available in different formats and concentrations, from 340 to 1300 International Units.

With more than 20 years of experience developing natural ingredients, **BTSA** is one of the leading European manufacturers of **Natural Vitamin E** for animal nutrition.

## BENEFITS

- Protect cell membranes
- Higher bioavailability than synthetic vitamin E
- Prevents oxidative stress
- Helps optimal functionality of circulatory system
- Strengthens immune system
- Reproductive system development

## APPLICATIONS

- Dry Pet Food
- Wet Pet Food
- Snacks
- Chews
- Holistic Diets
- Nutritional Supplements

## NATURAL VS SYNTHETIC VITAMIN E

Natural Vitamin E (d- $\alpha$  Tocopherol) has higher biological activity compared to synthetic vitamin E (dl- $\alpha$  Tocopherol) since there is greater absorption and therefore retention of its natural form in the body. According to the Food and Nutrition Board, NRC (2000), 1mg of synthetic Vitamin E (dl- $\alpha$ -Tocopherol acetate), has a maximum of 50% of active substances compared to its natural form.

## PRODUCTS

Product	Alpha Tocopherol	Solubility	Format
OXABIOL® E Acetate 1000IU	735 mg/g	Fats / Oils	Liquid
OXABIOL® E Acetate 650IU	478 mg/g	Fats / Oils	Liquid
OXABIOL® E Acetate 340IU	250 mg/g	Fats / Oils	Liquid

\* All products are available in powder and water dispersible form
