

Non-Dairy: Concentrated Dairy Flavors

Butter Buds® Non-Dairy Concentrated Dairy Flavors

Butter Buds® Non-Dairy Concentrated Dairy Flavors provide the flavor of butter and cream without the risk of exposure to dairy allergens. Lactose-intolerant consumers can now enjoy the taste of real butter and cream in a variety of foods and nutritional beverages.

Our non-dairy dairy concentrated powders are created using a combination of maltodextrin, sunflower oil and rice starch to produce highly-concentrated dairy-free dairy flavors. They provide creamy dairy flavor, add richness and mask off-flavors in ice milk, yogurt, icings, confectionary, dessert mixes, bakery products and more. They are low in fat and cholesterol and are Kosher and Halal certified.
