

## Butter Buds® Organic

### Butter Buds® Organic Concentrated Dairy Flavors

Our organic line of Butter Buds® concentrated dairy flavors are made with certified-organic ingredients. The fresh milk used to produce our organic Butter Buds® products is supplied by dairy farms that raise their cows according to organic farming methods. No hormones or antibiotics are used in the production of our organic milk supply.

Our Butter Buds® organic concentrated flavors provide all of the same great benefits of our non-organic products. Low in fat, cholesterol and trans fat, our organic butter, cream and cheese concentrates provide rich flavor while improving the nutritional profile of a variety of applications. Because these products are used at such low usage levels, they provide significant cost-savings. They also mask off-flavors, round out harsh notes, enhance flavors and improve mouthfeel. Butter Buds® organic flavors are Kosher and Halal certified.
