

# ROOF EXHAUST FANS

At SafeGrain, we specialize in designing and manufacturing high-performance roof exhaust fans. Our fans are engineered to provide optimal ventilation, ensuring safe and efficient operations in grain storage and handling facilities.

## 692 NOTCHED SERIES

Crafted from one-piece 16ga housing with an inspection cover for easy servicing

Designed to straddle roof ribs for higher placement and minimized roof weakening

Multiple options to match various bin manufacturers

Available in both 50Hz and 60Hz frequencies

Equipped with a gravity damper to keep out weather and birds

Explosion-proof option available

## 690 FLAT ROOF SERIES

Crafted from one-piece 16ga housing with an inspection cover for easy servicing

Can be purchased with a mounting sleeve for concrete silo installations

Suitable for both 1-phase and 3-phase power supplies

Available in both 50Hz and 60Hz frequencies

Equipped with a gravity damper to keep out weather and birds

Explosion-proof option available
